

Get more from your software investment.

DFdiscover gives you the software and support you need to get the most out of your study.

DFdiscover is an established pioneer of electronic data capture, creating software solutions that evolve with our clients' needs. Remote area or urban center, single-site or multi-site, paper-based or electronic collection – we flex with your needs to provide the most customizable eClinical software platforms in the industry.

Choose your partners, leverage your technology.

Built for maximum flexibility, the DFdiscover software offers a variety of features that make your team more efficient and effective.

DFdiscover, our core offering, provides:

- Online, offline, paper-based: An integrated platform for EDC, eSource, and direct data capture
- Our secure hosted environment boasts a 99.9% uptime
- Scalable and flexible, with a variety of global extensions
- Cost-efficient, time-saving software with built-in and user-customizable edit checks
- Full regulatory compliance with HIPAA, GDPR, FDA 21 CFR Part 11, and ISO 9001:2015 certified

“The DFExplore tools are useful, customizable, and always evolving, making it easy to get exactly what we need, whether it’s data, metadata, reports, custom edit checks, a unique study set-up, etc. I can’t imagine us having worked with anyone else.”

Senior Biostatistician

Because the health of the world depends on the health of your data.

dfnetresearch.com

Global extensions for DFdiscover software.

DFengage

Electronic Patient Reported Outcomes

Reduce clinic visits and scheduling while improving your participant experience with our ePRO mobile solution that's easy to use and install.

DFcollect

On-the-go Data Collection

Sync, gather, and update clinical research data anywhere – even offline. Ideal for low-connectivity regions, our software ensures continuous progress anywhere.

DFconsent

Electronic Consent

Empower patients while complying with the IRB and protocol, right from your phone. DFconsent streamlines consent while reducing paperwork.

DFsources

Upload Source Data

Simplify document submission no matter the source. With redaction, certification, photo upload, and edit tools built in, it's easier than ever to collect data.

Get more from your software investment.

At DFnet, we know that a software is only as strong as the people that back it. Our commitment to ongoing support, education, and partnerships is unsurpassed across the globe, making us the eClinical software of choice for our universities, government, and private healthcare partners.

Compelled by people, propelled by technology.
